

Optical Polishing Technician

AMF Optical Solutions, LLC. – Woburn, MA

We are seeking a qualified individual to grind and polish precision optical components such as Glass and IR Materials to a specific tolerance.

Responsibilities:

- Ability to setup and operate optical grinding and polishing equipment according to the instructions, including reviewing prints and designing tools
- Lapping and polishing of various types of metals and glasses in several optical configurations
- Know how to take measurements on metrology systems such as interferometers, profilometers and microscopes
- Adjust tooling and spindles as necessary
- Perform blocking and unblocking of parts
- Read drawings to determine lens specifications
- Clean and maintain machines and work area

Requirements:

- Able to polish using pitch laps, working to tolerance 1/10 wave
- Perform calculation, quality tests, measurements and inspections
- Clean and prepare parts for QC
- Able to read, understand and follow written instructions and procedures
- Excellent attention to detail
- Good written and verbal communication skills
- Decision making and time management skills
- Ability to contribute as an individual and as a team member

Experience/Certifications/Degrees Required:

- High School diploma and 2-5 years relevant experience grinding and polishing optics
- Experience with CNC Polishing and Generating Equipment a plus

Additional considerations and requirements:

- Standing for long periods of time
- Handling of delicate optics
- Good math skills
- Working with chemicals and solvents
- Following all safety and health regulations
